

Description of Additional Supplementary Files

File Name: Supplementary Data 1

Description: This Excel formatted file contains the source data for the two graphs displayed in Figure 1 (graphed with ggplot2 in R). The first tab contains the Subject ID, Session #, Content Type, and Accuracy for the Paired Heights task. The second tab contains the Subject ID, Session #, Content Type, and Spearman Rho correlation between the participant-reported ordering for each content problem space and the correct ordering. Each of these tabs are sorted with ascending Subject ID, then Content Type, followed by Session #.
